

COMPANY PROFILE

cyberone etech edev

ABOUT US

Founded by experienced and passionate engineers, with a common goal to simply deliver highly professional enterprise IT Solutions & Services and Software Development. We aim to bring and deliver innovative technologies to your working environment, being able to improve business processes, bring new and improved products and services, increase efficiency and productivity.

Specialized on most well-known vendors and technologies, with more than 15 years of experience in the industry, with large numbers of complex projects implemented,

our philosophy is to solve our client's toughest IT challenges by providing consulting and un-matched end-to-end integration services, software engineering including project planning, designing, delivering, supporting and maintenance.

Technology without proper delivery and integration is invaluable, and that's where we come in.

We are committed to deliver latest technologies and innovations.

OUR SERVICES

We provide full spectrum of services such as planning, designing, building, operating and maintaining an efficient and cost-effective infrastructure to elevate your employee's productivity and take your business to the next level. Our services help on building Enterprise/Midsize/Small business solutions while covering the following industries: Financial Services, Public Sector, Healthcare, Hospitality, Retail.

NETWORK INFRASTRUCTURE SERVICES

Get your infrastructure to adapt to the mobile demand, prepare for the IoT and connect with your customers while keeping you network secure from the evolving threats.

NETWORK ARCHITECTURE

Campus, Branch & Mobile Infrastructure

- Routing & Switching
- Data Center Networking
- Network Security
- Network Management and automation

Mobility

- Controller based Wi-Fi
- Mobility Express Wi-Fi

SOFTWARE DEFINED & INTELLIGENT WAN SD-WAN

- Network Based
- Over the Top
- Static Network Based

iWAN

- WAN Traffic Optimization
- Application Protocol Visibility
- WAAS
- PfR – Dynamic Path Selection

VIRTUAL PRIVATE NETWORKS

- MPLS VPN
- Site-to-Site VPN
- Multi-Site VPN
- RA VPN (Mobile teleworkers)

DATA CENTER INFRASTRUCTURE

With best in class products and solutions prepare your infrastructure for evolving technologies. Be ready for on premise hybrid cloud, converged and hyper converged systems, to support business needs and increase your company productivity.

SERVER INFRASTRUCTURE

- Rack and Tower Servers Infrastructure
- Blade Systems, Converged Server Infrastructure
- Software Defined Infrastructure & Automation
- Converged/Hyper-Converged Infrastructure

DATA STORAGE INTEGRATION

- ALL Flash and Hybrid Storage infrastructure
- NAS and file Object Storage Infrastructure
- Software Defined Storage Infrastructure
- Storage Replication and Availability services

VIRTUALIZATION SERVICES

- Server virtualization Infrastructure
- Network Virtualization Infrastructure
- Desktop virtualization Infrastructure
- Application Virtualization
- Replication, High Availability and Backup Solutions

BACKUP, ARCHIVE & DATA PROTECTION

- Backup and Protection Software Solutions
- Backup and Protection Appliances
- Integrated Backup and protection appliances and solutions.

COLLABORATION SERVICES

With high end collaboration solutions provide an easy way of collaboration between teams, increase your productivity through the Voice and Video Conferencing solutions and also increase customer satisfaction with advanced Contact Center for your own specific needs

VOIP AND VIDEO COLLABORATION

- On-Prem Unified Communications
- On-Prem multi-party Video Conferencing
- Voice Messaging
- Instant Messaging and Presence
- Collaboration Mobility Services
- Recording
- Billing software

CUSTOMER CARE

- Contact Center Inbound/Outbound Campaigns
- Integration with 3rd party applications
- Custom Workflows
- Supervisor Tools
- Reporting

CLOUD SERVICES

Migrate to cloud services for a fast, secure, geo-redundant, flexible and cost-effective cloud deployment solutions. Build your Primary Data Center or Disaster Recovery Site in world's leading cloud providers AWS, Azure or Google Cloud Platform.

NETWORKING & COLLABORATION (IaaS and SaaS)

- WAN Infrastructure
- Cloud Internet Edge Security
- Cloud VoIP and Video Collaboration
- Cloud Conferencing
- Cloud Mobility Solutions

DATA CENTER INTEGRATION SERVICES

- Directory Services
- Mail Services
- File Services
- Remote Desktop Services
- Rights Management Services

DATA CENTER CLOUD SERVICES (IaaS, SaaS and DRaaS)

- Private and Public Cloud Solutions
 - Office365 integration and implementation
 - Hosting Services
 - AWS and Azure Cloud Integration Services
- 

CYBER SECURITY SERVICES

By building a secure network you prevent those attacks and get control over what flows over your network and much more.

NETWORK SECURITY AND FORENSICS

- Advanced Malware Protection and Analysis
- Email Security
- Web Access Security
- Next-Generation Firewalls
- Next-Generation IPS
- Identity Awareness
- Endpoint Security
- Threat Intelligence and Analytics
- High Encryption communication systems

APPLICATION SECURITY

- Log and Auditing Security Solutions
- Operating Systems Hardening
- Application Hardening
- Multi-Factor Authentication

SECURITY SERVICES

- Penetration Testing
 - Cloud Assessment
 - Information Security and Management
 - Response readiness Assessment
 - Compromise Assessment
- 

SOFTWARE DEVELOPMENT

We provide and deliver advanced, reliable enterprise software solutions to support your operations. We help you create innovative, engaging products, while simultaneously ensuring rapid time to market. We offer innovative, agile & competitive services for custom software & application development.

SERVICES

- Product Development
- Software Testing
- User Interface and Experience
- Consultancy and Innovation

PRODUCT DEVELOPMENT

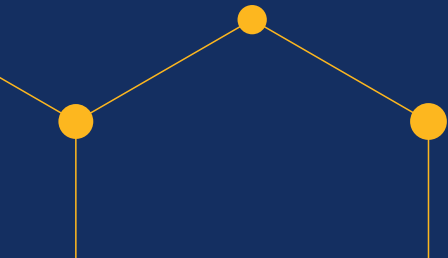

- Web Applications
- Mobile Applications
- Microservices
- Data Mining and Analysis

INDUSTRIES

- Financial Institutes
- E-commerce
- Digital Learning
- Retail Industries
- Healthcare

FRAMEWORKS AND TECHNOLOGIES

- Python, PHP, C#, JavaScript, jQuery, VueJS
- Django, Flask, Laravel, ASP.NET
- RESTful
- Agile Development

CONSULTING AND SUPPORT SERVICES

Plan, build and implement proper solution using team of experts. Prepare your IT Strategy to give your business the right solution. Get professional support to make your systems running.

PLAN

- Strategy and Analysis
- Assessment
